on how making the caps... 2017年11月3日

If you want to take the hat I sent apart for measuring that is fine. I can also send you more. 10:21

why you always think we can help you to do the hats? 10:23
although we make your hats wrong
I am very curiously

The quality you sent me was very good as samples. The hats you sent were very good 10:25
quality it was a manufacturing mistake that put us in this spot. So the hat was very close we
just need to re-measure the triables and the hat would be great.

The 3D embroidery was awesome on the front of our hats. Better quality than what we get
from the couple big brands we sell.

FAQ

Q1. What shall we do if we need our brand logo on the product?

A: You just need to send us an email with the logo in AI, PDF or JPG format, our R&D department is fully computerized with AUTO CAD to make your design. Besides, we also design new products to follow the fashion trendy and make your hats popular to people worldwide.

Q2. Is your factory able to make samples before order placed?

A: Sure, no problem. Honestly, sample production is the security for both of us to make sure the actual hat exactly like what you want. And even if we go directly into mass order, we will also have a pre-production sample made first for your final approval & confirmation before starting the whole hats.

Q3. What colors you can do to my caps?

A: Any common colors are available, and we can even customize dying per Pan-tone color for you based on certain quantity.
