

First let's listen what our customers say about our products:

### About snapback hats

Snapbacks first came around in the 1950's when baseball players made them a part of their uniform, but in the 1990's they became a fashion trend and part of pop culture.

These caps tend to look similar to standard baseball caps except for the adjustable plastic 'snap' in the back that allows the wearer to adjust the size and a flat brim.

Snapbacks can be worn many different ways, depending on the style you are trying to achieve.
