

## Specifications:

If you would like one of these bucket hats and think you might like a different fabric pattern, then please do message me. The possibilities are endless and if you have a particular theme in mind, we could put that into practice.

Little people and their grown-ups vary so much in size, so the guide below is the one I use to make these hats. The measurements represent the head circumference they are designed to fit. Please take a look at the size guide before ordering and I would recommend measuring the head before ordering.

| Item                | content   | optional   |
|---------------------|---|--|

## FAQS

Which size is best for my child?

We always recommend measuring on the head of your child where a hat would be. That is, over the forehead and just above the ears.

We have 2 sizes available that both have an adjustable snapback. Please note that the proposed age limits are only a guide. Children come in all shapes and sizes, and boys usually have a larger head than girls.

**TODDLER SIZE:**

The hat is adjustable between 43-51 cm

Generally suitable for children from 4 months to 2 years

**YOUTH SIZE:**

The hat is adjustable between 49-55 cm

Generally suitable for children aged 2-7 years
